

WHITE BOX

BY BOLD

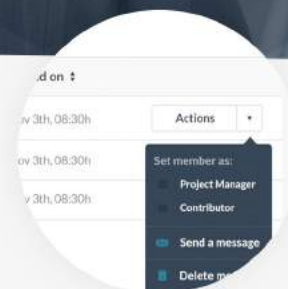

White Box by BOLD is an innovative new risk management tool, that gives you the power of quantitative risk analysis, without any of the quantitative risk modelling!

Real-time risk analysis – see the implications of the risk assessment on your overall project’s risk exposure, in real time, as you and the team build up the risk register.

Practical and powerful risk assessment methodology, developed over 25 years of risk analysis experience on major (and mega) projects in all industries.

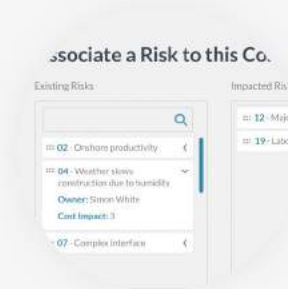

Add, assess and comment on, assign ownership, and plan responses to risks.

Collaborate with team members.

Drill in to see the risk exposure for each part of the project.

Understand where the team believes the risk lies, how much it is, and how they are (or could be) managing it.

Set realistic contingency and expectations, based on the team’s considered view of the real-world risk to the project.

Demonstrate the project team’s understanding and approach to risk management.

Track agreed response actions to risks, and understand their benefits vs costs.

Features

	WHITE BOX BY BOLD	WHITE BOX BY BOLD	WHITE BOX BY BOLD
	LIGHT	PRO	PREMIUM
Collaboration			
Workshop-friendly	✓	✓	✓
Score risks qualitatively or quantitatively	✓	✓	✓
Risk register includes both "uncertainty" and "discrete risk events"	✓	✓	✓
Allocate owners to risks and response actions	✓	✓	✓
Track response actions with status and deadlines	✓	✓	✓
Optionally categorise risks for more focussed risk workshops	✓	✓	✓
On-line chat among team members	✓	✓	✓
Multiple users in the same project	✓	✓	✓
Use on tablet	✓	✓	✓
Practical			
Designed to be used directly by the project team	✓	✓	✓
Clear presentation of risk assessments, assumptions and contingency figures	✓	✓	✓
Additive breakdowns of contingency (e.g. P90) across work breakdown structure	✓	✓	✓
No training required	✓	✓	✓
Quantitative Risk Assessment (QRA)			
Real-time analysis and results	✓	✓	✓
Automatic reports	✓	✓	✓
Contribution tornados (e.g. contribution of each risk to P90 project cost)	✓	✓	✓
QRA results are presented alongside the qualitative assessments	✓	✓	✓
Drill-down to risk analysis results (additive breakdowns)	✓	✓	✓
Express risk to			
Overall cost	✓	✓	✓
Specific cost breakdown items (e.g. a cost list, or in Excel)	✓	✓	✓
Schedule activity durations (e.g. in a P6 or Microsoft Project schedule), seasonal down-time (e.g. weather), incomplete / carry-over work	COMING SOON	COMING SOON	COMING SOON
